AMERICA FOR AMERICANS

McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was buried
in effigy in the English manufacturing
city of Sheffield; but in 1894 William
A. Wilson was buried and buried in London
because he is the author of a Free-Trade
Treaty Bill. These are significant facts.

The Searchlight, published at Dover
by Colonel SAN STONE, which was going
to reform our whole system of Govern-
ment, has again suspended, this time for
good. The paradox is that it could not
climb the "golden stairs."

"The horse Free-trade fell at the Man-
assas Neck, St. Louis, and Jockey Man-
assas was so badly hurt that he will
probably die. So much for racing over
a frozen track. -New Item."

This is not the first Jockey that has
been fatally hurt by riding Free-trade
over a frigid track. For particulars,
drop a note to your Uncle GROVER or
Speaker CHASE.

"COLUMBUS W. O. BRADLEY is working
the Republican papers of the state for
all that's in sight, although he seems to
have a 'clench' on the G. O. P. nomination
for Governor." Mayville Public
Ledger.

This item—like other items—has gotten
such a start on its journey that it is
hardly probable that the truth will be
able to overtake it. THE PUBLIC LEDGER
never gave utterance to any such
statement. This paper is for Colonel
BRADLEY without any "working" except
the work it will do to secure his election
as the next Governor of Kentucky.

COLUMBUS W. O. BRADLEY has announced
his candidacy for Auditor of Public Accounts, subject to
the action of the Republican Convention.
Without disparagement to any others
whose names may be presented, it is
safe to say no man in the state is better
equipped for the place, and THE LEDGER
knows of none other who would bring
to the ticket greater elements of strength.

Mr. STONE was Deputy Collector of In-
ternal Revenue for the Eighth District;
he is a gentleman of culture, free from
all "entangling alliances," and if nomi-
nated THE LEDGER believes he will not
only add strength to the ticket, but that
he will lead by many votes in many
of the most important counties.

BROWN CHEMICAL CO., Baltimore, Md.

Out of the twenty seven strikes that
occurred in the state of Pennsylvania in
1894, only three were successful.

A general resumption of work will take
place at Read & Co.'s glass works at
Massillon, O., within a few days. About
100 men and boys will be given employ-
ment.

Hundreds of New York cloakmakers
have refused to return to work since the
settlement of the recent strike, preferring
to work on the streets than accept the
terms agreed to.

The coal miners in the Castle Shannon
mines, to the number of 185, have decided
not to strike, and have accepted to the
demand of the operators for a reduction
of two cents per bushel, which rate went
into effect February 1st, under which the
men will receive a fraction over 52 cents
per ton.

The Cigarmakers Journal, in its last
issue, says: "The reports of the Internal
Revenue Department indicate that trade
is slowly on the mend. More cigars are
being turned out each month, and while
the output is still far below the average
monthly production in good times, it is
thought, and all signs indicate that there
is a slow but sure return of better times."

The wages of the employees of the New
Castle Wire Nail Works at New Castle,
Pa., have been reduced. The scale has
been placed on a quality basis instead of
by the day, which the men say is prac-
tically a reduction, in that they will be
required to perform additional work with-
out extra compensation. About 500 men
are affected. The laborers have also been
asked to accept a reduction of from ten to
fifteen per cent.

OHIO MINERS.

The K. of L. Section of the Na-
tional Organization.

Secretary McBrady Denounces
Sovereign and Hayes.

A Large Number of the Knights are Dis-
satisfied With Their General Officers
and the Miners' Branch—A Secession
Movement May Be Carried Out.

COLUMBUS, O., Feb. 12.—The Miners'
National District assembly, of the
Knights of Labor, met in Worthington
hall, at 10 o'clock Monday morning,
with about forty delegates in attend-
ance when Master Workman Penna
rapport for order.

The Knights of Labor assembly con-
stitutes one wing from the United
Mineworkers' National union and the
Progressive union. About six years
ago the two organizations formed
under the name of "United Workers,"
but have ever since preserved their
separate organizations, except when
joint conventions and joint actions
were required. This year the order
was reversed, and the Knights of
Labor miners have been given pre-
cedence.

The reason for this has been that a large
element of the knights are dissatisfied
with their general officers, and are ad-
vocating the withdrawal of their as-
sembly from the Knights of Labor.
If this is the case the United Miners
will be, to some extent, reformed
on new lines, and it is thought
will be a much more compact and
formidable organization than the
present.

Instead of owing allegiance to
two sets of national officers and pay-
ing dues to two organizations, the
proposition is to transfer their allegi-
ance to the United Miners' officials, to
whom all dues will be paid.

In view of the advantages to be
gained by the secession movement, it
seems probable that it will be carried
out.

On the other hand, the scheme to
form a new organization of disgruntled
knights, for the purpose of re-
surrecting T. V. Powderly and again plac-
ing him in the saddle, is not meeting
with much encouragement.

The miners' delegates are not tak-
ing kindly to the plan of the seces-
sion, and they will have to contend
to do with the proposed new organiza-
tion.

The foreman session of the Knights
of Labor convention was occupied in
hearing the reports of the committee
on credentials, the auditing committee
and the committee on the new organiza-
tion. Around the last report great
interest centers. The delegates were
Robert Washburn, of Pennsylvania;
C. C. Weaver, of Kentucky; A. B. Hays,
of Ohio; and J. A. Cairns, of Pennsylvania;
and Secretary Pat McBrady, all of
whom are present.

Secretary McBrady submitted the re-
port at the foreman session, and after
detailing all the circumstances con-
cerning the exclusion of himself and
other delegates from the convention,
proceeded to denounce Sovereign and
Hayes in scathing language for their
allegiance to the secession movement.
The secession leaders of the secession
movement were admitted.

Cal Brown, late Lieut. of Gen.
Cosay, by invitation, was elected
miners of the Massillon district to at-
tend the convention. He addressed
the local trades assembly Monday night
and will make a tour of Ohio for the
purpose of organizing clubs before
leaving the state.

At the opening of the main conven-
tion at 10 o'clock Tuesday, it is the in-
tention to make the investigation
of the Adams charges against
the national officers the first order of
business. The session will be an open
one.

A general opinion among the dele-
gates is that Pat H. Penna will be
elected national president on the first
ballot, but Secretary McBrady has a
big fight on his hands for re-election.
W. C. Pearce, secretary of the Ohio
miners, being his strongest opponent.

Coal Miners Strike.
ALLIANCE, O., Feb. 11.—A few days
ago the coal miners of Bergholtz, Jef-
ferson county, were notified by the op-
erators that, owing to the present con-
dition of business, it would be neces-
sary to reduce price of mining to about
75 cents per ton, refused to accede
to the terms of the miners' union, and
accordingly went out on a strike. Al-
though a speedy settlement is effected
it is feared suffering will ensue as
many of the miners are in poor shape
financially to remain idle for a short
time.

west Ohio points have completed ar-
rangements for quarters during the sum-
mer next September, and returned
home. Special quarters were secured
for the ladies who accompany veterans.
The names of about 400 Ohioans were

mittee.

BEHRRING SEA PAPERS.

The President Sends Them to Congress With
a Message.

WASHINGTON, Feb. 12.—The president
Monday sent the following message
to congress on the Behrring sea ques-
tion:

To the Senate:
On the 8th day of January I received a
copy of the following senate resolution:

"Resolved, That the president be re-
quired, if not incompatible with the
public interests, to communicate to the
senate all papers, including logs of vessels,
relating to the enforcement of the regula-
tions respecting fur seals, adopted by
the governments of the United States
and Great Britain in accordance with
the decision of the tribunal of arbitra-
tion convened at Paris and the regula-
tion and further, all papers not re-
quired to be made, as well as relating
to the number of seals taken during the
season of 1894, by the Behrring hunters,
and by the vessels of the United States
and Commander islands; also relating to
the steps which may have been taken to
extend the said regulations to the Ad-
antic waters of the North Pacific ocean
and Behrring sea and to secure the con-
currence of other nations in said regu-
lations; and, further, all papers not re-
quired to be made, as well as relating
